**RE: Letter of Deficiency #SPA-2000-01**

Dear Ms. Purington:

This letter is to inform you that our records at the Department of Environmental Services, Water Division ("DES") indicate compliance has not been achieved pursuant to **Letter of Deficiency ("LOD") #SPA-2000-01**, issued by the Division on January 10, 2000. To date, DES has not received notice that the restoration has been completed.

DES believes that most people are willing to comply with applicable environmental laws when they understand what the requirements are, and so uses a Letter of Deficiency to provide an individual the opportunity to come into compliance voluntarily. If the LOD is not effective in achieving compliance, DES can consider taking stronger enforcement action, such as imposition of administrative fines, or issuance of an administrative order, which is recorded with the Registry of Deeds in the county where the property is located.

You may avoid further enforcement action by responding to DES within **(10) working days** from receipt of this letter, and taking the necessary measures to come into compliance. The Shoreland Office can be reached at (603) 271-6876.

Sincerely,

Allyson Gourley  
Shoreland Compliance Coordinator
